

Activity 5: Bird OR Fish Adaptations:

You will have the chance to design your own original bird OR fish-one well adapted to its environment.

- 1: Refer to your bird OR fish adaptations research and using the adaptations chart provided, record the specific features you want for your bird OR fish
- 2: Explain the environment that would best suit your bird OR fish.
- 3: Describe the niche your bird OR fish serves in its environment.
You must decide:
 - a: where your animal will live
 - b: what your animal will eat
 - c: the way your animal will move (its motility)
 - d: whether your animal is male or female
 - e: Based on these choices, you must decide the adaptations that are necessary for your animal and record them on a piece of paper.
- 4: Draw the picture of your animal.
